Made from Renewable Sources

Sustain Paper Lunch Boxes are made from renewable paperboard material with a PLA (polylactic acid) display window and inner lining. PLA is a bioplastic derived from natural, renewable, plant-based sources such as sugarcane and corn.

Commercially Compostable

Compostable products will breakdown into nutrient-rich organic matter which can be used as a fertiliser for plants. Sustain Paper Lunch Boxes are ABA certified compostable in industrial facilities, so will breakdown under specific conditions in accordance with AS 4736:2006.
