

Pristine

HYGIENE SOLUTIONS

The Total Washroom Solution

PREMIUM PLUS Hand Towel

The **PREMIUM PLUS** washroom range includes Through-Air-Dried (TAD) hand towels – a high-quality, softer product. With a unique dimpled pattern for extra absorbency, **PREMIUM PLUS** hand towels reduce waste and are a cost-effective solution for high traffic washrooms.

Delivering value with high-quality hygienic paper solutions

PREMIUM PLUS hand towels improve hand hygiene in washroom settings and are available in four sizes, all of which are compatible with a Pristine Dispenser.

What is TAD Technology?

TAD Technology is a process used in tissue manufacturing. It spreads fibres that create absorbency pockets to draw water in, providing up to twice the bulk and absorption capacity for the same basis weight. With superior strength, this reduces consumption and wastage through more efficient hand drying.

PREMIUM PLUS Quality

Features & Benefits

- **PREMIUM PLUS** quality
- TAD Technology for greater softness
- Unique dimpled pattern for extra absorbency
- Less paper usage reduces waste and delivers value
- Interleaved for easy, single sheet dispensing
