White Paper Hot Cups

White Paper Double Wall Hot Cups

Designed with double wall insulation, these cups are ideal for hot drinks on the go. With a BioPBS (Bio-based Polybutylene Succinate) lining, these white paper hot cups are also designed to allow businesses to stamp their own logo or company name on the cup.

CODE	PRODUCT	DESCRIPTION	CAPACITY	UOM/QTY

SUSHCLP12/16	Hot Cup Lid	White/Sugarcane Pulp	Fits 12/16oz & 8oz Wide	CTN/1000

Sustain

The Solution is in Your Hands

Made from Renewable Sources

The Sustain White Hot Cup range is made from paper from well-managed, Forest Stewardship Council® (FSC®-C117930) certified forests and other controlled sources. FSC® promotes environmentally appropriate, socially beneficial, and economically viable management of the world's forests.

The lining of these cups is made from BioPBS (bio-based polybutylene succinate), a bio-plastic derived from natural, renewable sources such as sugarcane and corn, instead of a traditional oil-based plastic lining.

Compostable in Industrial Facilities

Compostable products will breakdown into nutrient-rich organic matter which can be used as a fertiliser for plants. The Sustain White Hot Cup range is ABA certified compostable in industrial facilities, so will breakdown under specific conditions in accordance with AS 4736:2006.
