

Procedural Mask Ear-Loop, L2

Premier procedural ear-loop face masks have been developed with wearer comfort in mind. The aluminium nose bridge creates a form fitting seal which helps to minimise fogging, whilst improving wearer comfort and safety.

LEVEL 2

Type IIR

PRFMELB/2

Features & Benefits

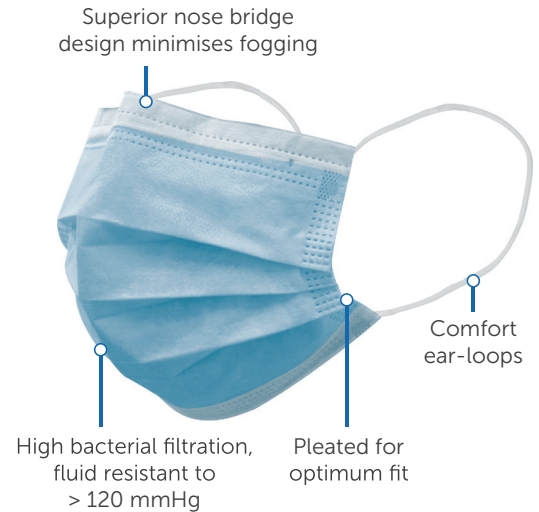

- Premium quality, blue, ear-loop, procedural mask
- Optimum fit ensures the mask stays in place while in use, which helps prevent the wearer touching/adjusting the mask with their hands
- Superior aluminium nose bridge strip provides better security with less air leakage, and helps to minimise fogging when wearing glasses
- High bacterial filtration, and fluid resistant to > 120 mmHg (> 16.0 kPa)
- Suitable for use in healthcare. Single use only

Compliance

- Complies with Level 2 - AS 4381:2015
- Complies with Type IIR - EN 14683:2019
- Bacterial Filtration Efficiency (BFE) % $\geq 98\%$
- Differential Pressure (Delta P) mm H₂O/cm² < 5.0
- Resistance to penetration by synthetic blood (fluid resistance) min pressure in mm Hg for pass result 120mm Hg
- Listed in the ARTG, 336935

Packaging

- Packaging Description: 50 pieces per inner dispenser box, 40 boxes per outer carton
- Pieces per Carton: 2000
