

Allcare personal protective wear benefits your employees and others who enter your business site.

Knowing that you have the right PPE helps ensure daily standards are maintained, reducing the likelihood of any health and safety risks occurring.

Keep your staff, visitors and customers safe – with Allcare.

Gloves

Choose the Allcare disposable nitrile glove that best suits your purpose. Examination gloves with a standard cuff are powder-free (in blue). Alternatively, for food handling / food processing either a long-cuff or extra heavy duty long-cuff with a fish scale grip, both are powder-free blue. These high-quality gloves are suitable for either working within Healthcare, Food Handling, and General Cleaning – all are for single use.

CODE	DESCRIPTION	MATERIAL	COLOUR	UOM
ALL403	Disposable Nitrile Glove, Examination, Standard Cuff, Powder-Free	Nitrile Butadiene Rubber	Blue	100 PCs
ALL405	Disposable Nitrile Glove, Examination, Long Cuff, Powder-Free	Nitrile Rubber	Blue	100 PCs
ALL501	Disposable Nitrile Glove, Food/Industrial, Extra Heavy Duty, Fish Scale Grip, Long Cuff, Powder-Free	Nitrile Rubber	Blue	50 PCs

Hair & Beard Nets

Hair caps should be lightweight yet fitted to prevent any contamination. They should always completely cover the worker's head to prevent any loose hair falling into product or getting caught in machinery. An ideal cap is made from non-linting, non-woven 100% polypropylene, making it light-weight and breathable, with an elastic band to secure fit. Beard covers follow the same reasoning behind hair caps. A good quality beard cover prevents any loose hair from contaminating produce, while also minimising risk.

CODE	DESCRIPTION	MATERIAL	COLOUR	UOM

ALHNW/21	Hair Net, Disposable 21 inch	Nylon	White	CTN/1000

Shoe Covers & Sleeve Protectors

Disposable shoe covers are designed for indoor use to cover footwear and prevent cross contamination of sensitive and clean areas. Shoe covers are soft and lightweight to ensure user comfort and breathability for long periods of use. On the processing floor, tracking outside contaminants into clean environments is a high-risk hazard. Shoe covers should always be designed with elastic and velcro for easy putting on and pulling off. Sleeve protectors offer lightweight, waterproof protection and coverage for the area from your wrist to your elbow. Made from lightweight and economical LDPE material, they are ideal for food processing environments.

CODE	DESCRIPTION	MATERIAL	COLOUR	UOM
ALOSPEB	Shoe Cover / Overshoe, Non-Slip, Disposable, Large (360 x 150mm)	Elastic	Blue	CTN/1000

Disposable Lab Coats, Aprons, Ponchos, Spill Gowns & Smocks

Disposable aprons, smock, ponchos and coats create an effective barrier between your staff and the products they are working with. If aprons get covered in contaminants, they're easily replaced as they're affordable and efficient. An ideal protection for clothing while still being lightweight, making them perfect for use in various facilities.
