

A worker in a red uniform and hard hat is operating a pallet jack in a warehouse. The pallet jack is carrying a large pallet wrapped in blue plastic. The warehouse has high ceilings with industrial lighting and racks of cardboard boxes in the background.

Advantage

At Advantage Plastics we believe there is a better way to package your goods. Our aim is to offer the latest advances in plastics technology to produce a better result for our customers while working towards a more sustainable future. Whether wrapping goods for transport, meat and fresh produce or customised retail packaging, Advantage has you covered.

Retail Food Bags

If you're in the retail food space, Advantage's food bags can make packaging your hot and cold food even easier. With closures ensuring a tight seal, these bags ensure long-lasting freshness for your food selections.
