

Disposable Nitrile Gloves

Allcare personal protective wear benefits your employees and others who enter your business site.

Choose the Allcare disposable nitrile glove that best suits your purpose. Examination gloves with a standard cuff are powder-free (in blue). Alternatively, for food handling/food processing either a standard cuff or extra heavy duty long cuff with a fish scale grip, both are powder-free blue.

These high-quality gloves are suitable for either working within Healthcare, Food Handling, and General Cleaning – all are for single use.

Keep your staff, visitors and customers safe – with Allcare.
