

Up to 97% PACKAGING WASTE REDUCTION

with solid warewashing chemistry

SMARTPOWER

With a concentrated formula and powerful non-corrosive chemistry, the SMARTPOWER solid range is effective on all dishware. Its innovative design not only reduces packaging by up to 97% compared to traditional liquids, but can also help reduce total costs of operations by reducing rewash by up to 10%.

Safe & simple operation

Fast drying action

Effective freight cost

Full visibility & control to improve operations

Save on storage space

Effective warewashing performance
