Made from Renewable Sources

The Sustain Board Food Boxes and Trays are made from paper from well-managed, Forest Stewardship Council® (FSC®-C117930) certified forests and other controlled sources. FSC® is a global, not-for-profit organisation dedicated to the promotion of responsible forest management.

FSC® promotes environmentally appropriate, socially beneficial, and economically viable management of the world's forests.

Recyclable in Co-Mingled Recycling

Sustain Board Food Boxes and Trays can be disposed of in co-mingled recycling. This means they can be collected, sorted and recycled successfully in practice and at scale in Australia and New Zealand.

Alternatively, they are also compostable in industrial facilities so will breakdown under specific conditions.
