

KHABIN

High quality professional tools of the trade

The Khabin range of knives and blades are crafted for professionals of the food service and food processing industries. Khabin products are made from high quality carbon German stainless steel and designed for the most demanding of chefs, butchers and meat processors.

Knives for Chefs

Khabin knives offer an ergonomic and hygienic orange santoprene handle for strength and ease of cleaning. Hi-visibility handles have the added benefit of greater visibility when submerged in water. The range is designed to withstand the pressures of a busy commercial kitchen environment.

Wide Chefs Knife
