

The Effortless Choice

The KIMBERLY-CLARK PROFESSIONAL™ TWIN CENTRE PULL BATHROOM TISSUE SYSTEM is a high-capacity, hygienic solution designed for busy bathrooms. It delivers efficient, single-sheet dispensing and pairs perfectly with KLEENEX® Centre Pull Bath Tissue rolls. Thoughtfully engineered with every detail, it's the smart choice for your business.

HYGIENIC

Fully enclosed and single-sheet dispensing helps reduce germ spread by limiting contact.

EFFICIENT

This twin roll, high-capacity system holds up to 2,500 sheets to help reduce the risk of running out.

DESIGNED FOR BUSY BATHROOMS

CONVENIENT

Easy to load, the unit can be wiped clean with no dirt traps. Best of all, it's easy for everyone to use.

LESS WASTE

Controlled single-sheet dispensing means less waste, plus it's made from FSC-certified fibre, so it's better for the planet too.

When EVERY detail matters

The Kimberly-Clark Professional™ Twin Centre Pull Bathroom Tissue System supports sustainability and cost control with a high-capacity system that reduces waste and refill frequency. Its single-sheet dispensing and enclosed design enhance hygiene, while the easy-to-clean surface and quick-refill feature simplify maintenance – making it a smart, space-saving solution for any bathroom.
